- **FFII: Software Patent Events 2004²**

In 2004 the FFII will participate in numerous exhibitions, conferences and hearings. In April we will organise a conference in Brussels on pending legislation on patents and information infrastructures.

- **Conferences on Software Patenting 2003³**

The FFII Workgroup for Protection of Information Innovation against the Abuse of the Patent System participates in conferences and exhibitions. In 2003 we again have a full program including booths at exhibitions and participation in academic panels and hearings, much of them in and around the European Parliament. We try to document these activities.

- **Conferences on Software Patenting 2002⁴**

The FFII Workgroup for Protection of Information Innovation against the Abuse of the Patent System participates in conferences and exhibitions. In 2002 we again have a full program including booths at exhibitions and participation in academic panels and parliamentary hearings. We try to document these activities.

- **Conferences on Software Patenting 2001⁵**

The FFII Workgroup for the Protection of Digital Innovation against Software Patents frequently participates in conferences and exhibitions. We have presented our case at booths of Systems 2001 and Linuxtag 2001 as well as several hearings of governments and parties. We try to document these activities.

- **Conferences on Software Patenting 2000⁶**

The FFII Workgroup for the Protection of Digital Innovation against Software Patents frequently participates in conferences and exhibitions. We have presented our case at booths of Systems 2000 and Linuxtag 2000 as well as several hearings of governments and parties. We try to document these activities.
